

Well Water Testing Day

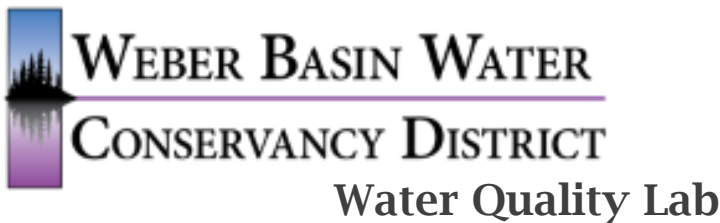

July 15, 2024

Available to anyone living in Uinta County only!

More than 75% of Wyoming's population relies on groundwater for their drinking water supply. Properly maintained wells help protect the groundwater that supplies your well. You are solely responsible for maintaining your private well. Knowing the water quality of your well is the first step in protecting your family.

Take advantage of UCCD's annual well water testing day to test your well water!

Options	Description	Lab Rate	Your Cost
Option 1	Annual Testing — Bacteria Presence/Absence, Nitrate	\$27	\$0
Option 2	Full Well Test —Bacteria Presence/Absence, Conductivity, Magnesium, Manganese(total), Sodium Adsorption Ratio(SAR), pH, Sodium, Nitrate, Total Dissolved Solids(TDS), Calcium, Iron(total), Hardness, Potassium, Alkalinity, Chloride, Fluoride and Sulfate	\$217.00	\$108.50

Taking your sample on July 15 is critical as some tests must be analyzed within a short holding time.

Important Dates to Remember

★ Must **pre-register** by 3pm on Monday, **July 1**, including which test option you would like — call 307-288-0214 or register online. **Payment is due at time of pre-registration.**

★ **Bridger Valley**-pick up your sampling kit from the UCCD Office July 8-11, from 8am—4pm.

★ **Evanston** -pick up your sampling kit from the UW Extension Office during their business hours July 8-12.

★ **Sample your water on July 15** and bring the sample back to the Conservation District in Lyman by 9am, or the UW Extension Office in Evanston by 10am, the same morning you sample. All samples must be back to one of these locations by the time listed, on July 15!

Conservation District Office:
204 East Sage Street, Lyman, WY

University of Wyoming Extension Office:
228 9th Street, Evanston, WY

Samples must be collected the morning of July 15 and brought to the drop off location before the time listed. UCCD will then put them on ice and take them to the lab in Layton, Utah to ensure the samples arrive at the lab within the holding time.

**Uinta County
Conservation District**

Results of your well water test will be emailed directly to you from the lab. UCCD will not have access to your test results. **Results of the Full Well Test could take up to 2 months to get back.**

***Register online at:**
www.uintacountycd.com

***Payment must be mailed or dropped by the UCCD office or Extension office upon registering.**
